DT22-240 Dual AM/FM Tuner

Music, News, Sports & Talk.

Radio is still the most-listened-to form of entertainment on the planet. The DT22-240 from ELAN brings it to every room in your home, at the touch of a button.

Look and Listen.

The DT22-240 lets you see what you're listening to. View station call letters, genre, song name and artist on any ELAN Touch Panel or Olé Film Interactive Touchpad in your home.*

Ready to Rock.

The DT22-240 comes preset for the Euro/Asia tuning region so that you're ready to rock (or jazz, or classical) right from the start.

Introducing the DT22-240 from ELAN

A dual AM/FM tuner that lets you enjoy independent radio station listening in different rooms throughout the house.

Built in to the DT22-240 are two high-quality AM / FM tuners. Dedicated outputs for each means that you can listen to different streams of radio throughout the house from a single DT22-240. If you want even more, two DT22-240s can be linked for up to four independent audio outputs.

The DT22-240 has a front panel IR receiver and comes with a full function handheld remote. There are also rear panel control ports for IR, serial and Ethernet control. In an ELAN multi-room system, 2-way feedback, including station call letters, frequency, genre, song name and artist, can be viewed on any ELAN Touch Panel or Olé Film Interactive Touchpad.* The DT22-240 also decodes and displays data from the Radio Broadcast Data System (RBDS) in the US and RDS in the EU, enhancing the user experience even further.

Setup of the DT22-240 is easy and intuitive through front panel buttons and a graphical LCD. Installers are guided through the setup process for everything, including Network and Ethernet settings. There's even a details screen that provides AM/FM signal strength and other diagnostic information. The DT22-240 can also be programmed using ELANTOOLS System Setup Software.

Users can easily program their own favorite station presets as they, too, are guided through this process for each tuner.

*Displayable data varies depending on source, i.e. standard AM/FM, RBDS, RDS.

DT22-240 Dual AM/FM Tuner

Features

- Built-in dual AM / FM tuners
- Two sets of independent outputs for multi-room listening
- Preset for EU / Asia tuning region right out of the box
- IR-, Ethernet- & Serial-controllable
- View radio station & "Now Playing" information on ELAN user interfaces
- Easy setup & diagnostics w / front panel buttons & graphical LCD
- Displays all RBDS (US) & RDS (EU) data
- Preset or direct numeric access (396 presets per tuner)
- IR remote control & rack-mount ears (incl.)
- Link 2 DT22-240s to provide up to 4 tuners (4 AM / FM)
- New ELAN SmartSource w / built-in VIA!Net communications

Specifications

Control Ports

IR In / Out . . . . . (2) 3.5mm jacks
VIA!Net In / Out . . . . . (2) RJ-45
RS-232 . . . . . (1) Female DB9 (DCE)

Ethernet . . . . . (1) RJ-45

Analog Audio Outputs . . . . . (2 pr.) RCA Stereo
(1 pr. per AM / FM)

Digital Audio Output . . . . . (2) Optical TOSLink
(1) per AM / FM tuner

Antenna Inputs . . . . . (1) Coax FM Antenna Input
(1) AM Antenna Input – Push Terminals

Audio: FM

Tuning Frequencies . . . . . 76 ~ 108MHz
Frequency Response . . . . . 300Hz to 15kHz (+0/-3dB)
SNR . . . . . 63dB (Mono) / 58dB (Stereo)

Audio: AM

Tuning Frequencies . . . . . 520 ~ 1710kHz
SNR 56dB

General

Power Requirement 240VAC, 35W
Dimensions . . . . . (mm) 432 W x 89 H x 356 D
Weight . . . . . 6 kg

cTUVus, CE, C-tick, FCC Part15 approved
